I'm not too familiar with the software, so I'm not going to try to speak to its merits or lack thereof, but I am going to say this: It's definitely 3D, and you can also hold it up to the light and see all kinds of 3D shadows, which are subtle, but fascinating to watch. The technology is really interesting, and it's definitely got some great features on offer. However, as I say, I'm not much

What's New In?

- Available in 3 languages: English, Spanish and French. - Children can play a short quiz about famous transport means. - 12 airplanes and 6 ships to choose from (Boeing 747, Airbus 380, Boeing 747-100, Douglas DC-3, Lockheed Hercules, Supermarine Spitfire, Supermarine Seafang, Supermarine Spitfire Mk.20 and Sopwith Triplane). - A sound-clip is played when tapping the vehicle. - Children can touch the vehicle when in 3D to see how the parts of it move. - The application can be played in autoplay mode. - Once children tap the airplane or the boat, they can hear the pronunciation and read the name aloud. - There is an option in the settings menu to allow children to clear the screen and/or turn off the automatic 3D animation. - The application can be downloaded free of charge from the iTunes Store. Whether you have a fast computer or a slow computer, iPad or a mobile phone that uses the same old software, then you will surely enjoy this game, which does not require you to learn a single word or to think about any calculations. Instead, you just have to explore this beautiful virtual world to complete a series of tasks. You will surely find a challenge here. As you move along, the game's scenery becomes a little harder. This is a wonderful adventure for those who want to escape without having to pick up any books, nothing more than a smart device.
