Board of Mechanical Engineering

Code of Mechanical Engineering Ethics in the Philippines

Pursuant to Section 9 of Commonwealth Act No. 294, as amended, otherwise known as the Mechanical Engineering Law, this Code of Mechanical Engineering Ethics is hereby adopted by the Board of Mechanical Engineering as part of the Rules and Regulations governing the practice of Mechanical Engineering.

GENERAL PRINCIPLES

Rule 1. The mechanical engineer shall, in the practice of his profession, be governed by the Golden Rule, the ideals of service to man and his environment, and the indispensability of unwavering public confidence in his professional competence, integrity and humanity.

Rule 2. The mechanical engineer shall maintain the proper pride for his profession, observe the standards of professional practice, safeguard the dignity, welfare, and reputation of his colleagues in the professions, and fulfill his duties and obligations as a citizen of the Republic of the Philippines.

Rule 3. The mechanical engineer shall update and enhance constantly his professional knowledge and skills through assiduous research and study, and meaningful participation in continuing education programs and seminars conducted or authorized by the Philippine Society of Mechanical Engineers or educational institutions supervised by the State.

Rule 4. The ethical principle governing the mechanical engineer applies equally to partnerships, firms and entities organized and existing for the practice of mechanical engineering.

RELATIONS WITH THE STATE

Rule 5. The mechanical engineer shall honor and respect the supreme authority of the State, the Rule of Law, the primacy of the general welfare, the fundamental rights of persons, and the obligations and privileges of citizens recognized and guaranteed by the Constitution of the Philippines.

Rule 6. He shall cooperate fully with the State in the pursuit of national development plans and programs, the inviolability of national security, the promotion of peace, and the prevention and/or prosecution of unjust, criminal or unlawful acts and omissions.

Rule 7. He shall be ready to render the services needed for the adequate and orderly development of the resources of the country, and to offer his mechanical devices and inventions essential or necessary for national defense.

Rule 8. In a national emergency, he shall offer his professional knowledge, skill and experience in the service of the State.

RELATIONS WITH THE COMMUNITY

Rule 9. The mechanical engineer shall be well-informed of the latest technological progress in his own line of work. He shall encourage and require the use, or application of standard mechanical equipment, machinery, or processes for safety, economy and efficiency.

Rule 10. Whenever he designs a mechanical equipment, machinery or process, or prepares the layout of a project, he must apply an adequate factor of safety, and provide for the necessary leeway for proper operating and maintenance conditions.

Rule 11. When he discovers faulty or unsafe devices, equipment, or machinery in any place, work or plant, he shall without delay, give notice thereof to the proper authority, public or private, for the immediate and effective correction, regardless of whether or not he is responsible for said place, work or plant.

RELATIONS WITH LABOR

Rule 12. The mechanical engineer shall recognize labor as one of the major resources of our country. He must acknowledge that a working man is not a mechanical robot but a human being.

Rule 13. He shall be familiar with the State policies on Labor and Social Justice, as well as labor and social legislation and shall observe faithfully these policies and laws in his dealings with labor in general, and
